-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

2. The Information Disclosure Statement, filed October 23, 2003, is acknowledged and has been considered.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1 and 2 are rejected under 35 U.S.C. 102(e) as being anticipated by Yano et al. (U.S. Patent No. 6,401,854 B2).

Yano et al. discloses a control apparatus comprising all elements as claimed, including automatic clutch control means for automatically calculating and establishing an engagement force of said clutch means according to traveling conditions of said vehicle; manual clutch control means for manually establishing said engagement force of said clutch means; and control selecting means for selecting either of said automatic clutch control means and said manual clutch control means and for commanding said selected one to output said engagement force (see

Art Unit: 3611

in particular embodiment described in detail in column 9) and wherein, in an initial condition of an ignition switch turned on, said control selecting means command said automatic clutch control means to output said engagement force of said clutch means until said manual clutch control means is newly selected (manual input overrides automatic clutch input).

Allowable Subject Matter

5. Claims 3 and 4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Takei et al. (U.S. Patent No. 4,887,686), Duntov (U.S. Patent No. 3,580,350), Inoue (U.S. Patent No. 6,607,060), Nishimura (U.S. Patent No. 6,524,221), Nishimura (U.S. Patent No. 6,536,569), and Onuki (U.S. Patent No. 6,428,447 B2) disclose automatic and manual clutch assemblies for controlling four wheel drive vehicle differentials.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Avraham Lerner whose telephone number is (703) 308-0423. The examiner can normally be reached on M-F (8:15-5:45) first Wednesday off.
